Subject: RE: Roundtable on Free Market Approaches to Environmental Protection

Hi Alberto,

This is the only bio that I have for the Administrator at this point. I hope it helps.

Mark

Scott Pruitt

On February 17, 2017, the United States Senate confirmed Scott Pruitt as the 14th Administrator of the U.S. Environmental Protection Agency.

As Administrator, Mr. Pruitt's overarching goal is to lead EPA in a way that our future generations inherit a better and healthier environment as he works with the thousands of dedicated public servants at EPA who have devoted their careers to helping realize this shared vision, while faithfully administering environmental laws.

Most recently, Pruitt served as the Attorney General for Oklahoma. Almost immediately upon taking office, he worked with his Democratic counterpart in Arkansas to reach agreement to study the water quality of the Illinois River, which crosses the border between the two states and has been enjoyed by generations of Oklahomans.

Before being elected attorney general, he served eight years in the Oklahoma State Senate where he was a leading voice for fiscal responsibility.

After earning his Bachelor's Degree from Georgetown College and graduating from the University of Tulsa College of Law, Pruitt went into private legal practice, specializing in constitutional law.

In addition to his life as a civil servant, Pruitt is a successful entrepreneur. As a co-owner and managing general partner of Oklahoma City's Triple-A minor league baseball affiliate, the Oklahoma City Redhawks, Mr. Pruitt

took over the team's marketing operations and helped the team become one of the minor league leaders in attendance and merchandise sales.

Pruitt is, first and foremost, a family man. He and Marlyn, his wife of 27 years, proudly raised their daughter, McKenna, and son, Cade, in Tulsa. Pruitt has made it a priority to pass on to his children the same principled family values with which he was raised.

Dear Mark,

I'll make some formal remarks to get things started. In this respect, it'd be very useful if you could send me the short bio the Administrator wants to be used, as an introduction.

Thanks! alberto

2017-05-26 16:57 GMT+01:00 Kasman, Mark <Kasman.Mark@epa.gov>:

Thank you Alberto!

If we have overflow that do not fit at the table, they can sit in seats behind the table and listen to the discussion. The Administrator will start with a few short comments and then we expect to go into discussion/dialogue around the table. Will you or others be making formal remarks to get things started?

Mark

Dear Mark,

Please find attached the list. The list is divided between confirmed participants, and those who still haven't confirmed. I expect we will be 20ish, as planned.

The list provides you with some basic information on attendees and prospect attendees, which should be enough to run your due-diligence.

I look forward to meeting you in a few days.

Alberto

Dear Alberto,

I hope that you are doing well. We are all looking forward to Administrator Pruitt's mission to Italy and the Roundtable with the Bruno Leoni Institute. Because EPA is a regulatory agency, it is necessary for us run a due-diligence on private companies that meet with the Administrator to avoid the appearance of a conflict of interest with any company upon which EPA might have a significant action. Can you send us the list of attendees expected at the Roundtable? If not finalized, please send us the list of invitees right away.

Thank you so much for your consideration.

Best regards, Mark

Dear Mark,

Thank you. We're doing fine. We will start to send invitation cards tomorrow and let you know as soon as we have a suitably defined list of participants, most likely in the next 10 days.

We know that the end time of the seminar is still uncertain, given the Administrator's other commitments. But we are glad to have his time and attention.

May I ask you if there is any document you would like us to distribute to participants?

Thank you very much indeed.

Best,

Alberto

Greetings Alberto! I hope that you had a good weekend. I am just checking in to see how we are doing on preparations for Administrator Pruitt's visit to Rome and his participation in the Roundtable on Free Market Approaches to Environmental Regulations hosted by Istituto Bruno Leoni. I believe that you have been in touch with our colleagues at the U.S. Embassy, copied here, but wanted to make sure we were all on the same page. Do you have a list of invitees/participants that you can share with us yet? Is there anything that you need from us?

We are looking forward to seeing you in Rome soon.

Best regards, Mark
